

ImGui::GetColumnWidth

ImGui::ShowMetricsWindow

ImGui::GetColumnOffsetFromNorm

```
graph LR; A[ImGui::GetColumnWidth] --> C[ImGui::GetColumnOffsetFromNorm]; B[ImGui::ShowMetricsWindow] --> C;
```

The diagram illustrates a dependency or relationship between three ImGui functions. On the left, two white rectangular boxes with black borders contain the text 'ImGui::GetColumnWidth' (top) and 'ImGui::ShowMetricsWindow' (bottom). On the right, a gray rectangular box with a black border contains the text 'ImGui::GetColumnOffsetFromNorm'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'ImGui::GetColumnWidth' and 'ImGui::ShowMetricsWindow' depend on or interact with 'ImGui::GetColumnOffsetFromNorm'.
