

ImGui::Bullet

```
graph LR; A[ImGui::Bullet] --> B[ImGui::GetCurrentWindow]
```

A diagram showing a call from `ImGui::Bullet` to `ImGui::GetCurrentWindow`. The `ImGui::Bullet` node is a gray rectangle on the left, and the `ImGui::GetCurrentWindow` node is a white rectangle on the right. A blue arrow points from the right side of the `ImGui::Bullet` node to the left side of the `ImGui::GetCurrentWindow` node.

ImGui::GetCurrentWindow
